REPORT

**Business Performance in 2024 and Business Operation Plan
for 2025 of Saigon Traffic Construction Joint Stock Company**
(Serving the 2025 Annual General Meeting of Shareholders)

- Pursuant to Resolution No. 01/2024/NQ-ĐHĐCĐ dated April 20, 2024 of the Annual General Meeting of Shareholders of Saigon Traffic Construction Joint Stock Company;

- Based on the 2024 performance of Saigon Traffic Construction Joint Stock Company;

Saigon Traffic Construction Joint Stock Company reports on business performance in 2024 and the Business Operation Plan for 2025 as follows:

A. BUSINESS PERFORMANCE IN 2024:

I. Production and Business Results in 2024:

1. Estimated results of financial and production-business targets:

Based on revenue targets, the results of the Company's 2024 financial targets are as follows:

Unit: billion VND

No.	Target	2024 Plan	2024 Actual	Percentage of Completion (%)
		(1)	(2)	(3)=(2)/(1)
1	Revenue	990.00	1,506.57	152.18%
2	Profit (after tax)	23.126	40.337	174.42%
3	Dividend (%)	6.8%	9.0%(*)	132.35%

(Note: According to the 2024 audited financial statements)

(*) Expected dividend in 2024

2. Analysis and assessment of production and business activities and achieved results:

In 2024, Vietnam's economy continued to recover; however, businesses faced numerous difficulties in their production and business activities. The scarcity of construction materials significantly impacted the construction industry nationwide, including Ho Chi Minh City. Nevertheless, the leadership and the Company's collective anticipated this situation and formulated solutions to strive for the successful completion of the planned targets. Specifically:

2.1. Provision of Road Traffic Infrastructure Management and Maintenance Services:

*** Achievements:**

With the support and consensus of the Department of Transportation and Public Works and the Roads Management Center, the Company effectively implemented public service contracts in the field of regular road maintenance and traffic signal systems within the city. In 2024, due to additional funding from the investor for signed contracts, revenue in this area exceeded the plan (reaching 128% of the 2024 plan).

The Company performed well in patrolling, pothole repairing, and ensuring traffic safety. Along with paying attention to investing in modern machinery and equipment suitable for the characteristics of the city's traffic situation, it ensures that the roads are always clean and maintained in a good environment.

The Company participated in and won bids for public service packages in regular road maintenance and traffic signal systems, which are currently underway, along with an additional package for Thu Duc City in the 2025-2027 period. This ensures job stability and livelihoods for employees.

*** Difficulties and Limitations:**

The Company pre-financed for work outside of the contract to ensure timely road safety, but delayed payments from the investor extended the time needed for the Company's capital recovery;

The material transportation costs paid by the investor were significantly lower than the actual costs, affecting the Company's profit margins.

Ensuring traffic safety requires high standards and timely responses to adverse weather conditions, incidents, traffic congestion, or requests from Party A. Any incident or accident occurring during construction necessitates the Company's responsibility for resolution, compensation, and contract penalties.

2.2. The project implementation for the business sector:

*** Achievements:**

The Company participated in bidding and signed numerous substantial production and business construction contracts, expanded the maintenance market to neighboring provinces, and enhanced the construction capacity of highways, bridges, and embankments. The Company flexibly implemented several projects, ensuring adherence to contract schedules, maintaining the Company's brand presence in Ho Chi Minh City, and receiving high praise from investors.

The company participated in bidding for and executed multiple cold in-place recycling projects, contributing to the utilization of the company's existing machinery and equipment resources.

*** Difficulties and Limitations:**

Business construction faces intense competition from numerous contractors. Large-scale, complex projects necessitate joint ventures and partnerships for bidding, resulting in high risks if partners are not thoroughly vetted.

Numerous projects encountered site clearance issues and design modifications, preventing construction commencement and prolonging contract durations.

Sand and stone materials for construction are scarce, investors require proof of origin documentation, and prices have surged, leading to construction delays on some projects to recognize revenue in 2024.

Some units within the company have not been proactive in seeking projects to fulfill their assigned 2024 revenue targets.

2.3. Construction materials production and business sector:

*** Achievements:**

The hot asphalt concrete and bitumen emulsion production segment continued to support the Company's ability to meet demands for the Company's construction projects, contributing to the on-time and quality completion of key city projects and supplying resources promptly for routine maintenance and traffic assurance activities within the realm of public utility product and service provision.

Moreover, the Company intensified external sales of construction materials, which further contributed to the revenue and profits from this sector.

*** Difficulties and Limitations:**

The market for hot asphalt concrete production and supply faces intense competition from numerous rivals, resulting in a significant decline in revenue for this sector.

The escalating prices of input materials such as sand, stone, and asphalt have created substantial production challenges; hot asphalt concrete transportation costs have increased while investor-reimbursed transportation expenses remain low.

The company's hot asphalt concrete production line, employing outdated technology and incurring high production costs, yields low production efficiency, diminishing the company's competitiveness.

→Due to these difficulties and limitations, hot asphalt concrete and bitumen emulsion production primarily serves internal supply needs, resulting in low external sales volume.

2.4. Investment Activities:

*** Achievements:**

The Company continues to promote investment in machinery and equipment for construction to enhance production capacity, implement mechanization measures in production to meet environmental sanitation needs, clean streets, increase urban aesthetics, and ensure traffic safety, and occupational safety.

In 2024, the Company invested in 22 pieces of equipment and machinery with a total value of over 30.82 billion VND, contributing to increasing mechanization, timely serving construction projects, and increasing the Company's profits.

*** Difficulties and Limitations:**

Due to limited capital, investments primarily focus on motorcycles as needed by units serving construction projects; investments in high-value, technologically advanced machinery and motorcycles remain limited.

The lack of forecasting for production and business activities in investment planning has necessitated the rental of machinery and motorcycles during peak maintenance periods.

II. Labor and Salary:

1. Labor:

The Company has consistently prioritized enhancing the material and spiritual well-being of employees. All policies and regulations are fully implemented, including timely and complete social insurance, health insurance, and unemployment insurance contributions, in accordance with state regulations. Concurrently, the Company conducts visits, provides hardship allowances, and renews labor contracts for eligible employees.

2. Legal and Occupational Safety:

The Company places significant emphasis on ensuring occupational safety for employees by providing comprehensive and compliant safety equipment and hazard pay to workers. Furthermore, the company has procured personal safety insurance for all employees.

The Company regularly conducts occupational health and safety inspections at construction sites.

Ensure the maintenance of order, security, and fire prevention at the company's offices and warehouses, performing effectively to prevent any incidents.

B. PRODUCTION AND BUSINESS ORIENTATION FOR 2025:

I. Assessment of the 2025 Situation:

1. Advantages:

2025 presents numerous advantages and opportunities for the Company:

- Ho Chi Minh City continues to implement Breakthrough Programs and development tasks towards 2030, with a vision to 2045; the policy to accelerate public investment disbursement from 2023; the implementation of Resolution 98/2023/QH15 on piloting specific mechanisms and policies for Ho Chi Minh City's development; diverse infrastructure development investment sources allocated to various investors.

- In recent years, the Company has continued to implement construction projects, ensuring progress, quality, and urban aesthetics, earning high praise from investors and enhancing the Company's prestige in Ho Chi Minh City and neighboring provinces. This advantage helps the company in securing more construction projects in 2025 and subsequent years.
- Securing contracts for road traffic infrastructure management and maintenance services for the 2025-2027 period ensures the Company's operational stability and employee well-being.
- The higher value of contracts carried over from 2024 into 2025 provides a basis for achieving the set targets.

2. Difficulties:

Alongside these advantages, the Company continues to face challenges:

- Increasing market competition with the participation of diverse enterprises across all the Company's business sectors. Competitors offering substantial bid discounts pose challenges to the Company's bidding process.
- The scarcity of materials and the upward price fluctuations of input materials such as sand, stone, and bitumen create anticipated production difficulties; numerous projects encounter site clearance issues, design changes, and material shortages, impacting project progress and efficiency.

II. Production and business orientation in 2025:

Based on the expected production and business results achieved in 2024 and the forecast for 2025, Saigon Traffic Construction Joint Stock Company establishes the production and business direction for 2025 as follows:

1. Objectives:

- Accomplish the 2025 financial targets assigned by the General Meeting of Shareholders.
- Preserve and develop the enterprise's capital resources.
- Effectively execute contracts signed with partners. Ensure stability in production and business activities and sustainable development.
- Efficiently utilize the company's existing machinery and equipment system.
- Take care of and improve the quality of life for employees; effectively implement policies and regimes for employees.

2. Specific solutions to implement the tasks:

a. Provision of Road Traffic Infrastructure Management and Maintenance Services:

- Objectives:

- Effectively implement signed contracts in the provision of road traffic infrastructure management and maintenance services, ensuring quality, progress, traffic safety, and occupational safety.

- Continue to expand into new markets.

- Mechanization, application of science, technology, new technologies, and new materials in the field of provision of road traffic infrastructure management and maintenance services.

- Solutions:

- Ensure quality, progress, traffic safety, and labor safety for the workload assigned by the investor of contracts for providing road traffic infrastructure management and maintenance services.

- Strengthen patrols and inspections of the road transport system in the area managed by the company, ensuring timely and accurate detection and reporting of incidents occurring on the road and promptly resolving incidents to ensure traffic safety. Focus on road surface cleaning, mechanization and modernization of construction, management, and maintenance in the field of road transport.

- Accelerate the preparation of completion dossiers and payment settlements in the field of providing road traffic infrastructure management and maintenance services to quickly recover the company's capital, meeting the investor's disbursement schedule. In addition, coordinate with the investor to adjust the estimate, supplement arising items and quantities so that payment settlement can be carried out promptly.

- Continue to expand the market to participate in management and maintenance work in localities outside of Ho Chi Minh City and on national highways and expressways;

- Adjust the internal unit price norms to suit the current state unit prices, norms, and the company's existing machinery, equipment, and personnel capacity in order to bring about the highest efficiency in production and business activities.

- Research and apply science, technology, and new materials in the management and maintenance of the road system to meet the increasing requirements of contracts and the development trends of modern cities.

b. The project implementation for the business:

- Objectives:

- Participate in effective projects, ensuring quality and progress and avoiding contract violations;

- Strive to achieve the revenue target for the project implementation for the business in 2025.

- Solutions:

- Increase participation in projects in the districts; Focus on exploiting the market of investors with non-budget capital, infrastructure investors in Ho Chi Minh City and neighboring provinces;

- Focus on exploiting the field of waterway construction; Participate in bidding for construction in the fields of bridges, lighting, electricity, telecommunications, water supply...

- Enhance the capacity and experience of the Company to be ready to participate in suitable PPP investment projects. Research solutions to participate in traffic infrastructure development projects in Ho Chi Minh City related to Resolution 98/2024/QH15 on piloting several specific mechanisms and policies for the development of Ho Chi Minh City.

- Research and develop appropriate financial management mechanisms to support and improve the business efficiency of the enterprises in particular and the whole Company in general.

- Promote the role and responsibility of individuals heading affiliated units in the work of seeking and implementing construction projects.

- Strengthen marketing and branding activities.

- Accelerate progress, ensure construction quality, focus on acceptance and settlement of completed construction volume to record revenue and recover capital.

c. Construction materials business:

- Objectives:

- Effectively carry out the production and supply of asphalt concrete and asphalt emulsion for internal construction works.

- Further improve product quality, reduce production costs, increase market competitiveness, and increase revenue.

- Solutions:

- Production units strengthen the search for more markets and partners; arrange competent management and marketing personnel; prioritize selling the Company's hot asphalt concrete externally to achieve planned revenue.

- Research and invest in the application of new technologies in asphalt concrete production, focusing on ensuring and improving product quality; Develop a reasonable cost structure to increase competitiveness.

- Accelerate the investment and construction progress of the new hot asphalt concrete production plant. Work with input material suppliers and transporters to establish a reasonable cost structure and increase competitiveness.

d. Trading and operating the machinery and equipment system:

- Objectives:

- Effectively serve the construction of the company's projects.

- Efficiently operate the Company's existing machinery and equipment system.

- **Solutions:**

- Properly implement the management and maintenance of the machinery and equipment system.

- Coordinate machinery and equipment to ensure the company's production and business needs. Simultaneously expand the external rental market.

- Exploit the existing machinery and equipment system in the most efficient way.

- **e. Regarding labor, salary, and human resource development:**

- Strive to care for and improve the income of employees and effectively implement policies and regimes for employees.

- Research and develop policies to attract highly qualified human resources and a plan to train on-site personnel to be ready to undertake all projects according to the Company's needs, not only in 2025 but also in the long term.

- Organize training courses to improve staff qualifications and recruit high-quality personnel.

- Review and streamline the apparatus to suit the new situation. Build a team of successor leaders and management workers.

- **f. Traffic safety, labor safety, security, and order:**

- Ensure safety for employees, fully equip and properly implement labor protection equipment. Regularly organize occupational safety and hygiene inspections at the construction sites of the construction units.

- Ensure comprehensive traffic safety measures, including barricades, signage, and traffic controllers, are implemented throughout the construction process to mitigate potential incidents.

- Maintain order, security, and fire prevention measures within the company's offices and warehouses.

- **g. Regarding machinery and equipment investment:**

- Prioritize investment in machinery and equipment for construction to enhance operational capacity, mechanize production, meet environmental sanitation and street cleaning requirements, ensure traffic safety and urban aesthetics, contribute to revenue growth, and preserve capital.

- Explore investments in modern, high-tech machinery and equipment for large-scale and complex construction projects.

- Regularly review the machinery and equipment system, liquidate severely damaged and fully depreciated equipment that is no longer efficient, and research new specialized machinery and equipment investments for construction to strengthen capacity and expand the business market.

3. Summary of revenue and financial targets for 2025:

2	Profit (after tax)	23.126	40.337	174.42%
3	Dividend (%)	6.8%	9.0%(*)	132.35%

(Note: According to audited financial statements for 2024)

(*) Expected dividend in 2024

2. Regarding the activities of the Board of Directors:

The Board of Directors has duly exercised their rights and fulfilled their obligations as prescribed in the Law on Enterprises No. 59/2020/QH14 approved by the National Assembly of the Socialist Republic of Vietnam on June 17, 2020 and the Charter on Organization and Operation of Saigon Traffic Construction Joint Stock Company;

The Board of Directors members are assigned specific fields to examine contents within the Board's authority, leading to Resolutions and Decisions, while simultaneously monitoring, directing, and urging the company to implement these Resolutions and Decisions within their designated fields.

In 2024, the Company's Board of Directors maintained regular and ad-hoc meetings to discuss, exchange ideas, reach consensus, and promptly provide guidance and direction in managing the Company's production and business activities at each point in time and stage. The organization of the Board of Directors' meetings ensures compliance with the Company's Charter and the Law on Enterprises.

The Board of Directors held 06 meetings to discuss and vote on matters related to the Company's operations. In addition, the Board of Directors also held numerous meetings in the form of written votes from Board members to provide direction on important and urgent matters.

The Company's Board of Directors issued 26 Resolutions with a high consensus of 100% agreement from the Board members (appendix attached).

3. Regarding the remuneration of the Board of Directors and the Board of Supervisors

3.1 In 2024, the Company paid remuneration to the members of the Board of Directors and the Board of Supervisors, specifically as follows:

Unit: VND

Comments:

- The Company's financial situation is generally healthy and stable, ensuring payment security; the Company's financial targets are reasonable; the Owner's equity is preserved.

- Compared to the same period last year, Total Revenue increased by 16.39% while Management expenses decreased significantly by 29.57%; Management expenses only slightly increased in some items (Personnel expenses, depreciation expenses, outsourced service expenses); The most significant decrease in expenses compared to the same period last year was in the allowance/reversal of doubtful debts (total value decreased by 25.7 billion VND). This shows that the Company has performed well in cost management.

- With the increase in revenue and decrease in expenses, the realized profit in the period has increased, the ratio of profit after tax/owner's equity is much higher than the same period (the ratio of profit after tax/owner's equity in 2024 is 15.37% compared to only 9.55% in the same period).

- The Company's total assets slightly decreased, mainly due to the decrease in receivables and payables. The Company needs to continue to strengthen the management of customer receivables to avoid risks arising from having to resolve outstanding debts. For the allowance for doubtful debts that has been set aside, it is necessary to continue to urge relevant departments to

contact the Investor and customers to collect debts, in order to recover capital and improve the Company's profit targets.

- Payables mainly include payables to suppliers for production and business activities, and advances from buyers. These payables are expected to be paid and offset on time as prescribed.

4.5. Regarding investment activities: During the year, the Company invested in machinery and equipment for production and business with a total value of 29.50 billion VND.

5. Regarding transactions of the Company and subsidiaries with members of the Board of Directors, the General Director, other executives, and their related persons; transactions between the Company and companies where members of the Board of Directors, the General Director, or other executives are founders or managers: None.

6. Results of the supervision of the Board of Directors and the General Director.

The Board of Directors and the Board of Management have duly executed their powers and responsibilities with a high sense of responsibility for the legitimate interests of the Company and shareholders. The Board of Supervisors has not observed any irregularities in the management and administration of the Board of Directors, the General Director, and the managers.

6.1. Regarding the work of the Board of Directors:

- The Board of Directors has duly performed their powers and responsibilities as prescribed by the Law on Enterprises and the Company's Charter on Organization and Operation;

- The Board of Directors has established a 2024 work program aligned with the objectives and orientations resolved by the General Meeting of Shareholders to deploy specific tasks.

- The Board of Directors has performed their duties in accordance with operational regulations, holding 6 meetings during the year. These Board of Directors meetings were conducted as stipulated in the Company's Charter. The content of the meetings was within the duties and authority of the Board of Directors, operating with a high sense of responsibility. Furthermore, the Board of Directors has also conducted multiple meetings by obtaining written votes from the members to provide guidance on critical and urgent issues.

- During the year, the Board of Directors issued 26 resolutions with a high rate of unanimous approval (100%) from Board members. These resolutions and decisions of the Board of Directors were timely in providing direction, aligning with the Resolutions of the General Meeting of Shareholders.

- Regular monitoring of the Board of Management in the implementation of resolutions from the General Meeting of Shareholders and business production activities.

6.2. Regarding the executive function of the Board of Management:

- The Board of Management has implemented tasks promptly and flexibly to achieve optimal results, adhering to the guidance and directions within the resolutions and decisions of the Board of Directors.

- Through meetings of the Board of Directors, the Board of Management promptly reported on business operations and proposed appropriate solutions and policies to the Board of Directors to address difficulties and obstacles faced by the Company. The Board of Management also developed business plans and investment plans to ensure the Company's business activities achieved effectiveness.

6.3. Implementation of the Resolutions of the 2024 General Meeting of Shareholders:

a. Implementing financial targets: The Company has surpassed planned financial targets, ensuring dividend payments (expected) as stated in the Resolution approved by the General Meeting of Shareholders.

b. Profit distribution for 2023 and dividend payments to shareholders:

- Cash dividend payments to shareholders have been implemented; profit distribution and allocation to funds for 2023 have been executed in accordance with the Resolution of the General Meeting of Shareholders.

c. Selection of an audit company for the fiscal year 2024: A contract has been signed with Southern Auditing and Accounting Financial Consulting Services Co., LTD. (AASCs) to perform auditing and review of the Company's financial statements for the fiscal year 2024.

7. Evaluation of coordination between the Board of Supervisors, the Board of Directors, the General Director, and shareholders.

During their work, the Board of Supervisors has been facilitated by the Board of Directors and the Board of Management to complete their tasks.

The Board of Supervisors, the Board of Directors, the General Director, and other managers have maintained a close collaborative working relationship based on the principles of serving the Company's best interests as well as the interests of all shareholders while ensuring compliance with the legal regulations and the Charter.

8. Conclusion:

In 2024, the Board of Management deployed tasks promptly and flexibly to achieve the best results in accordance with the direction provided in the resolutions and decisions of the General Meeting of Shareholders and the Board of Directors, overcoming all difficulties and challenges, striving to complete all assigned targets and tasks, ensuring the livelihood and income of employees.

PROPOSAL
Profit Distribution Plan for 2025

**To: The General Meeting of Shareholders of Saigon Traffic
Construction Joint Stock Company**

- Pursuant to the Enterprise Law No. 59/2020/QH14 dated June 17, 2020, of the National Assembly of the Socialist Republic of Vietnam;
- Pursuant to the Charter of Saigon Traffic Construction Joint Stock Company;
- Pursuant to Resolution No. 09/NQ-HĐQT-CTGTSG dated March 24, 2025 of the Board of Directors on approving the contents to be submitted to the 2025 Annual General Meeting of Shareholders,

The Board of Directors respectfully submits to the General Meeting of Shareholders the Company's profit distribution plan for 2025 as follows:

1- The 2025 Profit Distribution Plan:

Unit: VND

No.	Item	Amount
I	Profit before tax, not yet allocated to the science and technology fund	30,678,461,000
II	Allocation to the science and technology fund (3% x taxable income)	920,354,000
III	Profit after tax distributed as follows:	23,806,485,800
1	Profit sharing for associated capital contributors according to the signed economic contract (If any)	0
2	Offset prior years' losses, no longer deductible from profit before tax as regulated.	0
3	Allocation to the enterprise development fund	0
4	Allocation to the reward and welfare fund (16.2% of profit after tax).	3,856,651,000
a	<i>Reward and welfare fund for employees - 75% of the reward and welfare fund</i>	

b	Management reward fund - 25% of the reward and welfare fund	
5	The remaining profit for dividend distribution is 7% of charter capital	19,949,834,800

The company is allocated a welfare and reward fund for 2025, which is 16.2% of the profit after tax in 2025; of which: Reward and welfare fund for employees accounts for 75%, the management reward fund accounts for 25%. The management reward fund is distributed to: Company Managers, Deputy General Directors, Chief Accountant and the Board of Supervisors.

2- Depending on the actual situation, the Board of Management may propose adjustments to some financial plan targets for 2025 as appropriate.

3- In case the profit after tax in 2025 exceeds the plan (after allocating the reward and welfare fund of 16.2% of the profit after tax), the Company is proposed to allocate a development investment fund (maximum allocation rate of 30% of the 2025 profit after tax) but still ensure a dividend payout ratio of 7% of charter capital in 2025.

The General Director will be balanced/regulated between the two Reward Funds and the Welfare Fund. The remaining balance of the Reward and Welfare Funds will be used for subsequent years, and the General Director is authorized to decide on their appropriate use.

In order to ensure the well-being of employees, depending on the actual business performance each year, the Company is allowed to temporarily allocate funds for reward and welfare, ensuring the dividend payout targets set annually by the General Meeting of Shareholders are met.

4- Science and Technology Fund: Based on the financial situation of the Company, the General Director is authorized to balance the fund by reallocating any outstanding balances from previous years in compliance with regulations.

The Board of Directors respectfully submits the above contents to the General Meeting of Shareholders for consideration and approval./.
